Kim's Ark will review your situation and determine if we have room within our rescue for your rats. If we do not have room we can still offer to help you by listing your rats on our web site along with your e-mail address.

Kim's Ark DOES NOT condone the reckless breeding of rats without sufficient planning. Therefore we do not take in rats from this type of breeding since it is the breeder's responsibility to care for all rats he/she bred. Read this web site for more information on the responsibilities of breeding.
