

## Other Rats and Mice

### Other Rats and Mice for Adoption

Last Update 9/15/08

The following rats and mice need homes but are NOT affiliated with Kim's Ark. Please e-mail the contacts listed for more information.

Kim's ark does NOT condone the breeding of pet store rats. Rats listed here are litters that were found, fostered, or from a single female bought unknowingly pregnant, etc...Massachusetts | New York | New Jersey | OtherMassachusetts Three males in Plymouth, MA Three boys - one tan, one black hooded, one black berk - are in need of a new home, as their owner feels they may pose a threat to her new baby. The rats are cage-aggressive and have been aggressive to each other, so they are each housed separately and may be adopted individually. For more information, email Audrey at ratsarecute247@verizon.net. Two Older Girls in Billerica, MA Two female rats are in need of a new home due to their owner's allergies. Penelope is cream-colored, Cindy is brown hooded, both are under 2 years old. They are friendly, but have not been handled frequently due to their owner's allergies. Penelope has a small growth between her front legs, they are otherwise healthy. Their cage can accompany them to their new home, and transportation is readily available within a reasonable distance of Billerica, MA

For more information, contact Kim at fireraven016@aol.com. Two Girls in Norwood, MA A rat owner recently moved to a new apartment that does not allow pets, and his two rats are in need of a new home. Buku and Ula are identical PEW rats, healthy and friendly, and both about a year old. Their cage can accompany them to their new home. They are currently located in Norwood, MA.

For more information, email Mike at gidget006@gmail.com. 4 males, 2 females in Brockton, MA A rat owner has found herself with a bit more than she can manage after rescuing a group of 14 rats from a bad situation. A few rats are in need of new homes - 2 black berk boys. 2 agouti hooded/bareback boys 1 black hooded girl 1 agouti hooded girl Transportation is available within a few hours of Brockton, MA. For more information, email Tracey at Adragynspirit@aol.com New York Lone Male in Syracuse, NY A blue blazed rat was dropped off at a petstore, and was lucky enough to avoid being sold as snake food. Unfortunately, he did not get along with his cagemate in his new home. He is shy with people, but healthy, and appears to be over a year old. For more information, contact Sosha at sfusco@syr.edu New Jersey

Two Males in Margate, NJ (9/15/08) Two young rats were bought from a pet store, but their new owner soon found they would require more time to socialize than she could devote to them. Both are males, one is tan and the other is black hooded. Their large cage can accompany them to a new home. Transportation is available within two hours of Margate, NJ. For more information, contact Doreen at dkraemer@wrseagate.com.

Fiona and Gordita in Keyport, NJ (7/27/08)

A law student has found she no longer has the time necessary to socialize her two timid rats, Fiona and Gordita. They are housed separately, and their cages can accompany them to a new home. Each are in good health, about 2 years old. One is a himi and the other is tan hooded. For more information, contact Kendra at SuNKiSt6285@aol.com. 14 rats in Columbia, NJ A group of 14 tan & white rats is available for adoption in Columbia, NJ. A pair of rats that had been adopted from a shelter surprised their new family with a litter of twelve, and unfortunately it is not possible for them to care for so many animals. Transportation may be available as far as New Jersey. Email kimsarkadopt@gmail.com for direct contact information. 17 Rats in East Brunswick, NJ A rat owner has found that she is no longer able to provide adequate care for her 13 pet rats. All are in good health, and about a year old. 1 is blue hooded rex

5 are beige hooded, 2 of which are rex

6 are black hooded, 3 of which are rex

5 are solid beige, 1 is rex and two are dumbo For more information, contact Kim at RedF250@aol.com. 3 Girls in Lawnside, NJ Three female rats are up for adoption as their current owner no longer has time to care for them. Bridget, Stain, and Amber are healthy, all are brown hooded. Two are friendly, but one is skittish. Transportation is available within 45 minutes of Lawnside, NJ. For more information, contact Tracy at yourwelcome454@yahoo.com Other

Two females in Colchester, VT (9/15/08)

Two young female rats, a gray hooded and an agouti hooded, were adopted from a shelter in VT. Their owner has found she can no longer keep them because her dog is frightened of them; she is not able to get her dog accustomed to them and also take enough time to socialize these shy and frightened rats. Their large cage can accompany them to their new home and transportation is available within 200 miles of Colchester, VT. For more information, contact Penny at pendaisy1@verizon.net.

Rats Abandoned in PA (9/15/08)

A group of rats was abandoned outside a shelter for dogs and cats in Chambersburg, PA. All are adult females, two are beige hooded, one is brown hooded, and the rest are PEWs. Two of the PEWs have short tails and at first appeared to be losing fur, but the condition is resolving. Foster or adoptive homes are needed, as the shelter is not equipped to house rats (potential foster volunteers, be advised these are not "Ark rats," this is a courtesy post for the shelter). For more information, contact the Jennifer at the Cumberland Valley Animal Shelter - [cvasmgr@hotmail.com](mailto:cvasmgr@hotmail.com).

#### Dumbo Litter in NH

Thanks to a surprise litter, nine baby rats are available for adoption in Essex Center, VT. All babies are gray & white dumbos, are friendly and healthy. For more information, email Brenda at [blmarceau@bpdvt.org](mailto:blmarceau@bpdvt.org).

#### Two Males in Merrimack, NH (7/15/08)

Two young rats were first adopted from an accidental litter and are now in need of a new home. Both are black hooded, healthy, and friendly. They were born February 2008, and their large cage can accompany them to a new home. For more information, email Sherie at [sherieclark@comcast.net](mailto:sherieclark@comcast.net). Four Older Males in RI (6/29/08)

A rat owner has found she no longer has time for her pets and would like to find a new home for them. Two are two years old, a blue dumbo named Remy and a black hooded named Corona. The other pair is about a year old, one siamese and one black. These two were rescued after being abandoned in a box in a local park. All are healthy and friendly, and transportation is available within a reasonable distance of Warwick, Rhode Island.

For more information, email Kelly at [kellyfrancis1@cox.net](mailto:kellyfrancis1@cox.net). Four girls in Old Lyme, CT A family of rats is in need of a new home as their owner will soon be going away to college and cannot take them along. Sunny- dumbo odd eyed tan with blaze Jezebel- pure black dumbo with white feet Lux- black capped Violet- black dalmation For more information, email Zoe at [zfales@region18.org](mailto:zfales@region18.org) 2 Females in Horsham, PA A rat owner needs to find a new home for her two rats as she no longer has enough time to devote to their care. The girls are about seven months old, one is black hooded and the other is beige hooded. They are healthy, and their cage and supplies can accompany them to their new home. Transportation is available within an hour of Horsham, PA. For more information, email Erica at [emschindy032903@aol.com](mailto:emschindy032903@aol.com).

Shelter Rats in VT Ratsalot Rattery & Rescue in Rutland, VT has a large group of rat currently available for adoption. Their previous owner was living in a van and was unable to maintain care for so many animals in her situation. All are friendly, playful, and healthy, transportation may be arranged within a reasonable distance. The following rats were available as of 2/07:5) 3-4 month old Pew males

4) 4-5 month old Pew males

4) 2-3 month old grey capped/variegated males

2) 2-3 month old black capped/variegated males

2) 2-3 month old Pew males(one is small was the runt)

5) 6-8 month old Pew females (these were the mothers)

9) 4-5 month old Pew females

8) 2-3 month old females (a few grey/black heads)For more information, contact Tonya at [smileygirlfromvt@yahoo.com](mailto:smileygirlfromvt@yahoo.com).

Surprise Babies in ME Thanks to a few surprise litters, there are a whole bunch of rats available for adoption in Houlton, ME. The rats were born July 2007, they are grey, black, some hooded, some self, and some rex! For more information, email DeAnne at [heart4mylord@yahoo.com](mailto:heart4mylord@yahoo.com).
