

Food, Treats and Supplements

I AM OUT OF FOOD!!!

If you're close to the East Coast and have 3-4 rats plus have freezer space, you can get 40 lbs of the #2018 through Pet Food Direct (please freeze half of it). If you have more than 4 rats, you don't have to freeze it.

If your rat colony is 3 or under OR if you're closer to the West Coast and need a bag, please contact Fenella of Wee Companions Rescue at weecompanions@aol.com. She ships out flat rate boxes throughout the US as well as Canada. She also has all the same formulas I carried. If you need Yogies you can get them directly through Sweet Meadow. I recommend the 5 lb bag and freezing! They also have Apple sticks and Tidbits!

Food, Treats, & Supplements

Harlan Teklad Lab Blocks #8604

Complete and balanced to deliver optimum nutrition. Called "the best lab block" by the RMCA! The #8604 formula contains 24% protein and 4% fat. Unlike other lab blocks whose first ingredient is corn, this formula's first ingredient is soybean meal! Contains molasses! No alfalfa (indigestible to rats.) Kim's Ark uses and recommends this lab block (we mix it with a high quality dog food like Wellness Senior or Innova Senior.) Made of all natural ingredients and uses soybean oil as a natural preservative. Lower quality blocks sell for more money at pet stores! Click [HERE](#) to find out more information on this formula.
